

STINE DENGSØ

We are a Danish Vegan fashion brand. We make our clothes in Denmark and avoid animals as a resource for our clothes. We go into sustainability and the quality of the products. You will find delicious vegan clothing where details are requested.

Denmark isn't a country with many productions anymore, but we make our products here in Denmark, therefore we have small productions and we are flexible. We have our eyes and hands in every piece, in every step in the process of making your new clothes.

We don't use animals in the clothes. We think we should let them live just like ourselves, what do you think? We want to affect the world, so there would be a larger group of human beings who wants to respect the animals, and choose to wear vegan. Take responsibility with us, the world will be a better place for all. You have a choice. A choice which have a huge impact on animals and the environment.

We have done the hard work for you,
so you can make the better choice. Take it with us.
