

## 10 minutes of information from one source

## 10 minutes of information from one source

Speakers Circle gives trade visitors of 'Circular Furniture and Interior Design' during '3 Days of design' the opportunity to explore a diverse range of topics under the focus Circular Economy. Exhibitors have 10 minutes time slots, during which they can talk about a topic of their choice. Responsibility for format and content lies in the exhibitors' hands. Company presentations and product launches are possible – just like the concept known from London's Hyde Park. The exhibitors are free to make the speech in either English or Danish by own choice. The Speakers Circle will be opened by *Isabella Holmgaard (Head of Circular Economy, Lifestyle and Design Cluster)* and culminates in a panel discussion held in Danish, where exhibitors are invited to discuss on the future of furniture. The panel discussion will be moderated by one of the industry's top debaters and *Steffen Max Høgh (Head of CSR at Holmris B8)*.
