

**EXHIBITION & TALKS**  
**3rd - 5th**  
**of September 2020**

## You are invited

Lifestyle & Design Cluster is pleased to invite you to the exhibition  
**Circularity in Furniture and Interior Design** during 3daysofdesign.

The exhibition raises the following question: How can Danish design go hand in hand with the challenge we face regarding the climate and scarce resources? The exhibition will showcase 27 different brands as well as 11 upcoming artists working with circular furniture design.

All the exhibitors deal with circular economy and/or sustainability in one way or another. As you will discover, it is a big and rather diverse world, that both include sustainable business plans, reused materials, and products made of things you couldn't imagine being used in that way. That's the beauty of circular economy. And it's already creating the furniture and interior design of tomorrow.

### Venue

**Pakhus 11, Dampfærgevej 2, Copenhagen.**

### Date

**September 3rd - 5th 2020**

### Exhibitors:

## Event Program:

### Thursday September 3rd:

10 AM – 5 PM: Exhibition is open (Pakhus 11)

1 PM – 3 PM: Speakers Circle (Pakhus 11) [Sign up here](#)

The **exhibiting brands** will speak about their products and introduce the visitors to the circular elements and the thoughts behind their designs. (In English)

### Friday September 4th:

10 AM – 5 PM: Exhibition is open (Pakhus 11)

10 AM – 11 AM: Certifications (Smedjen) [Sign up here](#)

A panel discussion will take place focusing on the significance of certifications within circular economy looking into what the future poses. The following people will participate in the panel: Nille Skalts - B-Corp / Annette Hastrup - cradletocradle.dk / Ingrid Elmedal - Ecolabel.dk / Ole Kiel - FDB Furniture / Jesper Panduro - Skagerak / Lone Ditmer - Dansk Wilton. **Facilitator:** Betina Simonsen, Lifestyle & Design Cluster.

1 PM – 2 PM: Circular Business Models (Smedjen) [Sign up here](#)

How can we tackle climate change head-on and create the most sustainable impact through circular business models and processes without compromising the aesthetic and functional value that Danish design is world-renown for? Which circular business models works in the furniture/interior industry? Does circular business model create more business- is there a demand? In this panel talk, we shine a light on state-of-the-art solutions that demonstrate how the use of circular business models can give a competitive advantage, increase revenue and drive the green transition forward while sustaining the aesthetic and functional value of products.

The following people will participate in the panel: Henrik Holm - Wehler / Frank Lindhøj - ScanOffice / Henrik Taudorf Lorensen - TAKT / Henrik Marstrand - Mater Design. **Facilitator:** Betina Simonsen, Lifestyle & Design Cluster.
