

# How do we design public spaces & furniture for seniors in the future?

Senior-friendly Furniture Forum  
at 10.00 - 12.00 CET May 19th.

In a few years there will be more people over 60 years than under 15 years. That will be the first time that our societies will experience this. How will our public spaces, indoor and outdoor look if we design for this future?

At this international online meeting we will discuss this topic with furniture manufacturers, public institutions, municipalities and research institutions.
