## August Sandgren

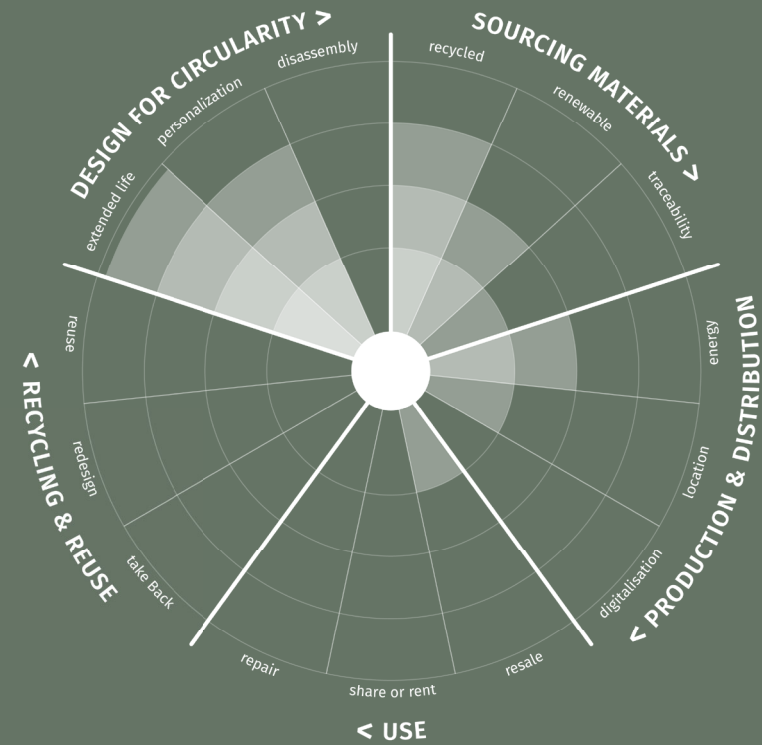

Based on a 100-year heritage, August Sandgren handcrafts timeless, functional, and aesthetic leather and fabric storage objects for every individual storage need in today's cluttered world. August Sandgren aims to make mess pretty at home and in the office.

### How they work on circular economy

August Sandgren's storage objects are crafted in Europe from natural materials and built to last a lifetime or more – in design, craftsmanship and choice of material. To August Sandgren, durability is sustainability across all parts of the business.

All August Sandgren's boxes, covers, folders and holders are made from natural surplus materials sourced from exclusive partners in the European furniture and fashion industry, European Oeko-Tex-certified leather or Danish traceable leather. Across the value chain, they always look for areas to eliminate waste in their own and affiliated businesses.

### DESIGN FOR CIRCULARITY

- > Strong construction and robust and durable materials
- > All products can be customized

### SOURCING MATERIALS

- > Primarily surplus and recycled materials used
- > Ecotex-certified leather
- > Traceable and certified virgin leather

### PRODUCTION & DISTRIBUTION

- > Products hand crafted, biodegradable packaging
- > Regional production linked to sourcing

### USE

- > Information on care and maintenance
